

ACORD 132 (2015/12) - Truckers / Motor Carriers Section

ACORD 132, Truckers / Motor Carriers Section, has been designed to handle the basic underwriting and rating needs for liability and physical damage coverages for trucking or motor carrier operations. If a transportation or motor truck legal liability exposure exists, the Transportation Section, ACORD 143, may also need to be completed.

Insurance coverages, "no fault" and uninsured / underinsured motorists coverages in particular, vary widely from state to state. In addition, there are numerous state-specific requirements that apply to Truckers or Motor Carrier applications. ACORD 132 cannot address these various unique specifications. Therefore, state specific forms, ACORD 137s, have been developed to respond to these requirements. Use the ACORD 137 for your state to provide coverages / limits information, as well as the required disclosure and other data unique to the state. See the specific state forms FIG for more information.

This form was designed to be used in conjunction with ACORD 125, Commercial Insurance Application, Applicant Information Section and ACORD 129, Vehicle Schedule. Please see the FIG for these forms for specific information on completing them.

Many states require supplements to all auto applications, to provide specific coverage explanations or to allow applicants to accept or reject certain coverages. In some cases, the applicant must be allowed to select among various options. In others, laws or regulations require disclosure of information pertinent to auto insurance.

ACORD has provided the necessary supplements in all states.
