

ACORD 20 (2016/03) - Certificate of Aviation Liability Insurance

ACORD 20, Certificate of Aviation Liability Insurance, is "issued as a matter of information only, and confers no rights upon the certificate holder. This certificate does not amend, extend, or alter the coverage afforded by policies".

The above information is included in the opening statement of the form.

If the receiver of the form wants to verify that coverage exists on a policy and has no direct interest in the policy, use the certificate of insurance. However, if the receiver of the form does have a verifiable interest in the policy, such as an additional insured, the liability policy must be amended by endorsement, to provide the appropriate coverage for the interested party prior to issuing a certificate of insurance (since the certificate confers no rights upon the holder and does not amend the policy).

Purpose of the Certificate of Insurance

The purpose of the Certificate of Insurance has been the topic of frequent discussions throughout the industry. Attention centers around the true purpose of a certificate and the rights, if any, it conveys to a certificate holder.

In a 1974 court decision (United States Pipe & Foundry Co. v United States Fidelity & Guar. Co, 505 F. 2d 88 (5th Cir. 1974), the court ruled that a certificate is not a contract between the holder and the insurer. It only provides information to an interested third party that insurance is in force at the time of issuance. The court also stated: "The provision regarding notification in the event of cancellation is a mere promise, unsupported by any consideration." Although many companies provide notice of cancellation to certificate holders, they are not obliged to do so, since the holder is not a party to the contract.

The Certificate of Aviation Liability Insurance is used for most casualty situations in which the insured has requested certification to a third party of issued casualty coverages.

The ACORD Certificate should be issued only in compliance with company instructions. ACORD recommends that the Certificate NOT be used in the following situations:

- * To waive rights
- * To provide information to the owner of a leased motor vehicle or the lender about both liability and physical damage coverages applying to the vehicle (ACORD 23, Vehicle or Equipment Certificate of Insurance, should be used for this)
- * To quote wording from a contract
- * To attach to an endorsement
- * To quote any wording that amends a policy unless the policy itself has been amended

IMPORTANT

ACORD is required to file certificates, on behalf of form users, in a number of states. Please access the ACORD website to download the Forms Filing Requirement document for complete details.
